ENVIRONMENTAL AWARENESS

American Yacht Harbor is fully committed to preserving the beautiful environment which attracts our guests to the Virgin Islands. We ask that you help us to ensure that our land and waters remain clean and safe – and we have adopted marina rules to properly regulate activities that may cause pollution. We apologize for any inconvenience that these rules may cause to you, but hope that you will agree to help us preserve the environment for future generations of boaters.

In this spirit, we must ask that you adhere to the following rules:

- We have preserved the mangroves that line our shore as a barrier to erosion and as a key breeding ground for fish. Please do not do anything that might damage these important bushes. In particular, we ask that you not cut or break the mangrove branches.
- We have garbage receptacles strategically located around the marina property and the docks. Please use these receptacles for your trash. We regularly empty these receptacles during the day, but please feel free to contact the Marina Office if any receptacle is full or if your trash exceeds the capacity of the receptacle. In any event, please do not dispose of any trash (including food waste and other organic matter) into the water.
- We ask that you not undertake any work in the marina which could cause the release of pollutants into the environment. For this reason, sanding, painting and similar activities should be done in a controlled manner and generally should not be undertaken in the marina.
- Discharge of septic systems, fuel, toxic cleaning agents and other pollutants into the water in the marina is a violation of both our marina rules and US law. It is strictly prohibited.
- Please note that ALL used oil, black water, and grey water removal must be done through the marina office in order to ensure safe and environmentally friendly removal and disposal. Please contact the Marina Office to schedule Used Oil, Black Water, and Grey Water Removal and for the most up to date pricing.
- Because the improper delivery of fuel, oil and lubricants also can cause pollution, delivery of any of the above products that have not been ordered through the Marina Office will not be allowed on the property. We would be most appreciative if you would immediately contact the Marina Office if you see any violations of these rules.

While there are a large variety of restaurants on the island of St. Thomas, these are a few that are nearby that we personally recommend.

While staying in St. Thomas it is definitely worthwhile to venture into Yacht Haven Grande where the dining is multi-faceted and the shopping is sure to appease ever taste. The dining at Yacht Haven Grande features three different and eclectic restaurants that are sure to satisfy.

If you're in the mood for more casual dining and upbeat nighttime atmosphere Fat Turtle is the place for you. Wikked features a Caribbean cuisine that is moderately priced and for the culinary and wine connoisseurs Grande Cru is sure to wow any guest with its extensive wine list and artful cuisine.
